

Electronic Scoring Policy

August 2016

All teams in all Grades are required to score matches using the Statsmaster/MyCricket electronic scoring.

It is the home team responsibility to live score in First & Second Grade.

Away teams may continue to use the manual scorebook as a backup or score electronically as well.

The home team must upload the recorded score data to the MyCricket electronic scoring system at the following times:

- Commencement of lunch
- Commencement of tea
- Stumps

with all match and player scores to be submitted by 7.00pm

In Third & Fourth Grade it is the home team responsibility to update the scores in MyCricket as per the above requirements.
